Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 July 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Reissue Applications

Applicant's amendment filed July 31, 2006 has been thoroughly reviewed and considered by the examiner. The supplemental declaration filed February 27, 2006 is accepted; therefore, the prior rejection of claims 1-21 as set forth in the Office action mailed December 14, 2005 is hereby withdrawn. The claim objection is also withdrawn in view of applicant's amendment that lists the claims on a separate sheet.

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The reissue declaration filed September 28, 2001 states that applicant inadvertently failed to claim the invention more broadly "as not requiring a 'control mechanism.'" This statement is vague and indefinite because applicant's amended claim 1 deletes the limitation of the "control mechanism." The amended claim 1 does not recite that a control mechanism is not required as stated in the declaration. In addition, it is noted that the limitation of the "control mechanism" is

retained in independent claims 11 and 18. The declaration should recite in particularity that broadening of claim 1 is the removal of the limitation of the "control mechanism as a part of the city water flushing and sludge prevention apparatus. Applicant must also provide an "explanation as to the nature of the broadening."

The reissue oath/declaration filed with this application is defective because the statement that the original patent is wholly or partly inoperative or invalid "by reason of the patentee claiming **more or less** than he had the right to claim" (emphasis added) is improper since a claim cannot claim "more or less" at the same time.

Claims 1-21 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4, 6 and 11-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following recitations are noted to lack antecedent basis: "said control mechanism" in claims 2 and 3; "the branch street water

main" in claim 4, claim 11, line 15 and claim 18, line 19; and "said control system" in claims 6 and 13.
